Position:	Student Health Advisory Committee Member	Wednesday:	11AM-12PM
Major:	Social Work	Thursday:	anytime after 11 AM
Class:	Junior	Friday:	

1. What previous experience have you had in the area in which you are applying for?

I have very little experience in this area, but serving as a student representative for the College of Health and Human Services, I believe this would be a great way to be involved on campus beyond my position. Due to the fact that I am representing and a student in the College of Health and Human Services it is crucial that I work with anything that relates to the college. Although the Student Health Advisory Committee promotes health related issues, I do have experience with promoting events and clubs. Serving as social chair for MEChA de CSULA has allowed me to not only develop my communication skills with others, but develop them through social media as well. Which I believe would really help me communicate with student about health related issues and advocate on their behalf.

2. State briefly why are you are applying and/or are interested in this position

I am interested in this position because, I believe with communication I can become a liaison between ASI the Student Health Advisory Committee and even the College of Health and Human Services. I really believe communication is key and once we have that down, we can work together to make sure our students are informed about health related issues.

3. What do you feel are some of the major problems facing the students of CSULA?

One of the biggest issues I see facing CSULA is the lack of communication. I believe CSULA and ASI provide amazing opportunities for our students, but they aren't informed. Until recently, I didn't know about these opportunities ASI has to offer and I have already been here two years. If I who have been here two years didn't know about this until now, I don't think others do either. But I think with a little bit more communication we can get students involved.

4. List activities and/or organizations that you have been involved with (on or off campus)

I have been involved with MEChA de CSULA through the 2016-2017 school year and served as social chair for the organization. Where I am expected to handle social media accounts, communicate with others in the campus community and off it.

Major:	Geography	Thursday:	2.30 - 3.30pm
Class:	Graduate	Friday:	11am - 6pm

1. What previous experience have you had in the area in which you are applying for?

My undergraduate degree is in Environmental Studies and I have a lifelong interest in environmental/sustainability issues. I am a current graduate Geography student, researching urban sustainability (in relation to transportation) for my master's thesis. I have a very good understanding of environmental issues and have studied environmental/sustainability policies of government offices and businesses.

2. State briefly why are you are applying and/or are interested in this position

I would like to be involved in making the campus more sustainable and feel I have the relevant knowledge and skills to be of value. Los Angeles wishes to be a world leader in sustainability, and college campuses are places where this could and should be enacted. Raising ecological awareness among students and the entire campus community would be my goal. I also hope to gain useful skills and experience for future employment.

3. What do you feel are some of the major problems facing the students of CSULA?

CSULA has a diverse student body, and I do not feel their problems can be summed up as a whole. However, there are problems of stress, well-being and financial issues which apply to students everywhere. Recent political developments, specifically regarding implications for undocumented immigrants, are a cause for concern for many students and their families. Secure housing is also a concern for a relatively large number of students. Sustainability/environmental policy should be engaged with individual and social, as well as ecological, concerns in an integrated approach.

I am a member of the Geosciences Club at CSULA.

Associated Students, Inc. 2017-18 Committee Appointment Application

Application Ref ID: 2391 | Submitted: Wednesday, June 21, 2017 - 3:45pm

Major:	Business Administration	Thursday:	9 AM to 3 PM
Class:	Junior	Friday:	9 AM to 5 PM

1. What previous experience have you had in the area in which you are applying for?

I am currently VPAG in ASI and am currently managing the recruitment of external university committees. I worked extensively with the VGPEAA last academic year through the Lobby Corps to organize against the proposed tuition increase, as well as lobbying in the state capitol.

2. State briefly why are you are applying and/or are interested in this position

I am interested in being a Legislative Affairs committee member because I believe it is important for the internal and external student advocacy branches of ASI to be well connected and informed with each other. Issues that affect ASI students on the external can also indirectly affect them on campus, and vice versa. I believe our efforts to represent the student body would be strengthened if these two branches coordinated on related issues.

3. What do you feel are some of the major problems facing the students of CSULA?

Regarding Legislative Affairs, I believe students must keep a close eye on the Department of Education and the dismantling of student loan protections. Also due to lack of state funding being allocated to CSUs, I believe there is more we can do with our financial aid department to improve these services for students so that they can better understand their financial options. In general, students are deeply impacted from the economic circumstances of Los Angeles and surrounding areas, and therefore we must ensure CSULA is responsive and pro-active in accommodating to students. It is because of this that I would like to sit on Leg Affairs and stay updated on external policies and issues affecting our students.

4. List activities and/or organizations that you have been involved with (on or off campus)
