<b>First Name:</b>	Rachel	<b>Monday:</b>	9AM to 1:30PM & 3-4:30PM
<b>Last Name:</b>	Duffy	<b>Tuesday:</b>	3-6PM
<b>Position:</b>	Associate Justice	<b>Wednesday:</b>	9AM to 1:30PM & 3-4:30PM
<b>Major:</b>	Political Science	<b>Thursday:</b>	3-6PM
<b>Class:</b>	Senior	<b>Friday:</b>	9-6PM

**1. What previous experience have you had in the area in which you are applying for?**

I served as an associate justice from July 2016 to May 2017. After serving in this position for an entire school year, I have become knowledgeable in both Robert's Rules and ASI policy. Previously, I have had experience in student government and leadership positions, including in the Early Entrance Program and the National Junior Honors Society. I am also a political science major with a pre-law option.

**2. State briefly why are you are applying and/or are interested in this position**

I felt that the work that I helped complete with the bylaws committee has helped better ASI and the school community at large. I enjoyed my time acting as parliamentarian on four different committees throughout the course of last year--it allowed me to participate and contribute to ASI in a way that is hard to do outside of the position.

**3. What do you feel are some of the major problems facing the students of CSULA?**

After working as an associate justice on the Judicial Review Committee before, during, and after the elections season, I think that the lack of student participations in elections is a major problem. Student participation on campus, especially in student activities, is a major issue overall.

**4. List activities and/or organizations that you have been involved with (on or off campus)**

Class: Junior Friday:

1. What previous experience have you had in the area in which you are applying for?

Though I have no prior experience in this field, I am determined to learn the rules and procedures of our Judicial Review Committee. I roughly familiarized myself with the duties of an Associate Justice and with the proper training, I will be able to deliver what's expected of me. I have also took it upon myself to understand A.S.I.'s By-Laws and Codes of Procedure Committee, seeing that I will be attending those meetings as well.

I am applying to this position because I want to contribute to CSULA's student life. I want to participate with A.S.I. in providing an efficient route for our committees to properly achieve their goals. The Associate Justice position will help me gain experience in the field of policy and law.

3. What do you feel are some of the major problems facing the students of CSULA?

I feel that sometimes our students or student groups don't know how to properly execute their goals and they result in failure. An issue students also face is not being knowledgeable of the resources available to them.

I am a member of the Pre-Law Society club on campus. I currently work at the University Student-Union as well.

**1. What previous experience have you had in the area in which you are applying for?**

I had previously attended CSU-Northridge and had to appeal to have my courses withdrawn because of medical circumstances, unfortunately I was not able to get it approved and had to continuously fight for a retroactive withdrawal appeal. When it finally succeeded I looked more into the appeal process in case I ever had to go through the same situation again. I believe because of my personal experiences I would be able to be a good option for this committee position.

**2. State briefly why are you are applying and/or are interested in this position**

I am interested because of my previous experience with the appeal process and would like to be a part of it for other students, as well as learn further.

**3. What do you feel are some of the major problems facing the students of CSULA?**

As the current presidential administration has made it much more difficult to gain an opportunity towards higher education, I want to be able to provide the student perspective towards the appeal process, as well as learn and expand my own knowledge about the procedure. Gaining the opportunity to get ahead in the world is becoming more difficult and there are ways in which areas in higher education can lessen that difficulty.

**3. What do you feel are some of the major problems facing the students of CSULA?**

CSULA is mostly a commuter school, most students don't take the time to inform themselves about the university's policies and the power they have as students. **2. State briefly why are you are applying and/or are interested in this position**

I served as the ASI Undergraduate Student Representative for EPC last year and would like to continue working with the faculty I've become acquainted with. Additionally, I'm already familiar with the policy being reviewed by the committee, so it would be more effective if I was the student representative on the committee again this year, since it is the largest committee in the Academic Senate.

**3. What do you feel are some of the major problems facing the students of CSULA?**

One of the biggest academic problems I see facing the students of Cal State LA is the lack of effective advisement. I've seen students who've been here for 5+ years not even aware if they are on track to graduate. Even after meeting with an advisor to solidify what classes they need to take to graduate, the classes aren't being offered often enough. Fortunately, the campus has recently adopted a new advisement strategy along with new advisement software. This is the first year the students will be advised with this new program and I am sure there will be many unpredictable problems that will arise involving this new program. In addition to being the student representative on the Academic Advisement Subcommittee of the Academic Senate, I want to be heavily involved in the process of reporting and resolving these problems for students.

I believe quality advisement is the key to ensuring students graduate on time and will not lose their financial aid. Because of that, I want to be one of the student representatives on the Academic Advisement Subcommittee when the new advisement software is implemented on campus. This way, I can be heavily involved in reporting and resolving the problems that will arise with the new advisement software.

**3. What do you feel are some of the major problems facing the students of CSULA?**

The 4-year graduation rate of our campus is shockingly low. Students unable to graduate on time are at risk of losing their financial aid. Because many of our students come from low-income families, it will be difficult for them to begin paying for tuition and fees out of pocket if they cannot graduate on time. That's why I believe that student involvement in and improvement of academic advisement is very important.
