

Pizza with the President Expectations and Framework

Mission statement:

The purpose of Pizza with the President shall be to engage in open deliberation with President Covino to support student needs, address student concerns and propel ASI advocacy efforts. President Covino has expressed great appreciation for the opportunity to engage with student leaders on the ASI Board of Directors and in the Academic Senate, as such we must value this time and maximize the efficiency of our meetings.

Participant Expectations:

ASI members who participate in Pizza with the President are expected to represent ASI with the utmost professionalism. This entails:

- Dressing appropriate
- Showing up early or on time, but never late
- Having discussion material prepped prior to meeting
- Representing the student body as a member of ASI
- Echoing the ASI goals and initiatives as reflected in our Strategic Plan
- Addressing President Covino and his fellow administrators with respect
- Tailoring our message to allow President Covino and his administrators to be as receptive as possible of our goals and initiatives
- Being actively engaged during the meeting

Presidents Issue Priority List 2018-2019

This will serve as our guiding discussion topics for the upcoming Pizza with the President meetings. This is an evolving document that we will add to as time progresses. The purpose of this document is to ensure that matters brought to President Covino are directed to the right platforms. Specifically, this list ensures that matters that can be resolved without the involvement of President Covino, do not take time from our rare and limited Pizza with the President meetings.

- DACA renewal processes
- Civic Engagement
- High Profile Events
- General Fund Budget Transparency
- Graduation Initiative 2025 impacts on Cal State LA students
 - 6 Pillars of Academic Barriers preventing 4-6-year graduation rate
 - Administrative barriers:

- Academic Advising (though the President has consistently said it's a faculty problem, not his problem) he should be held accountable for ensuring that this CSU initiative is addressed
 - Data driven decision making
 - Academic preparation
 - Enrollment management
 - Student engagement and well being
 - Financial aid
