

Associated Students, Inc.

ASI Member (ONLY) Committee Application 2019-20

Application Ref ID: 5112 | Submitted: Thursday, February 13, 2020 - 11:31pm

First Name:	Akalpit	Monday:	1:30 PM to 5:00 PM
Last Name:	Shukla	Tuesday:	4:20PM to 6:00 PM
Position:	NSS STEERING COMMITTEE MEMBER	Wednesday:	1:30 PM to 5:00 PM
Major:	Biochemistry	Thursday:	4:20PM to 6:00 PM
Class:	First Year	Friday:	12:30 PM to 2:30 PM

1. What previous experience have you had in the area in which you are applying for?

During grade school, I had a chance to lead the National Science Bowl team at my school. At this position, I had to manage the team, the academic aspects, as well as coordinating with the administration on the competition details. The middle school that I went to, The Science Academy Magnet, was heavily science-based, and this exposure to AP science level curricula helped me realize some areas that the NSS explores. I think this gives me an insight into some of the troubles that students of this college may face through their experience here. I think this will help contribute something to the table when the faculty/administration is discussing possible problems in the NSS.

2. State briefly why are you are applying and/or are interested in this position

The reason that I am applying for this position is because I will be able to discuss the problems that my fellow NSS peers face and bring to attention certain problems that the faculty and administration may not be focusing on. Even though I have only completed one semester as a college student, I wish to gain the ability to be a leader to solve the problems of my peers, whilst making changes to benefit future students. The other thing is that, as I help students with the problems that they are facing, I can also learn from these experiences and maybe even bring my own solutions to the table, as to how to solve a particular problem. And this a major part of why I chose this position; I am able to contribute to the overall good of this college's mission to provide for the public good.

3. What do you feel are some of the major problems facing the students of Cal State LA?

I think that a major problem that many of the students at Cal State LA students may face is not having the full support from their family or friends because they are first-generation students. For this reason, they rely on departments to guide them on their way to have a successful career, and I think that I want to be a part of Cal State LA's ability to serve the community as the #1 school for upward mobility. I think that this is a major problem that students face. Being able to help students that may have limited resources is one thing that I look forward to doing in this position.

4. List activities and/or organizations that you have been involved with (on or off campus)

Since I have directly come from middle school, I have not had major experiences as part of any organizations. I am looking forward to this position as being a stepping stone into my leadership involvement at Cal State LA, as well as using this experience to contribute to off-campus organizations and activities in my community.
