1. What previous experience have you had in the area in which you are applying for?

By the time I got introduced to economics in high school, I realized that business is the career which I would like to enter. It was also because of my passion for business-related activities, I volunteered to be vice treasurer of my class in my sophomore and junior year of high school. This experience made me understand how good it felt while helping my classmates to make sure our school is making the best use of our tuition. To develop my team cooperation skills, I joined an international students club and being elected as the president of the club in fall 2018. Moreover, I was the youth ambassador for New Taipei City from 2014 to 2015. These experiences developed my ability to complete the assigned tasks on a team basis. As a result, I think I am the best fit for this position.

2. State briefly why are you are applying and/or are interested in this position

The reason for me to apply for this position is that I would like to contribute what I am good at to the students at Cal State LA. My experience of being the treasure of my class made me believe that our school will become better when we all contribute what we are good at. Even though alone we cannot make some big differences, together we can make some practical changes to our school. Moreover, I believe that becoming a member of the finance committee will allow me to apply what I have learned in class to the real world. And that's why I am highly interested in this position.

3. What do you feel are some of the major problems facing the students of Cal State LA?

Located at the 2nd largest cities in the United States of America, Cal State LA is one of the most convenient universities. However, Cal State LA hasn't been using this advantage to help their students to connect with the business at downtown LA. Hence, the major problem that students at Cal State LA face is limited career opportunities comparing to students at other universities. In other words, our students must place more effort in finding jobs. The best solution to this problem is to cooperate with native business. Through connecting with native business, Cal State LA students can gain real-life experiences while native business can obtain professional scholarships. In this way, our school can become better and more competitive.
